Locally compact linearly Lindelöf spaces

Comment.Math.Univ.Carolinae 43,1 (2002) 155-158.

Abstract: There is a locally compact Hausdorff space which is linearly Lindelöf and not Lindelöf. This answers a question of Arhangel'skii and Buzyakova.

Keywords: linearly Lindelöf, weak P-point

AMS Subject Classification: Primary 54D20, 54D80; Secondary 03C20
