*Weighted norm inequalities for singular integral operators satisfying a variant of Hörmander's condition*

Comment.Math.Univ.Carolinae 44,1 (2003) 137-152.

**Abstract:** In this paper we establish weighted norm inequalities for singular integral operators with kernel satisfying a variant of the classical Hörmander's condition.

**Keywords:** singular integral operators, maximal operators,  $A_p$  weights

**AMS Subject Classification:** 42B20, 42B25
