A characterization of complex L_1 -preduals via a complex barycentric mapping

Comment.Math.Univ.Carolin. 57,1 (2016) 39–49.

Abstract: We provide a complex version of a theorem due to Bednar and Lacey characterizing real L_1 -preduals. Hence we prove a characterization of complex L_1 -preduals via a complex barycentric mapping.

Keywords: complex Banach spaces; L_1 -predual; barycentric mapping

AMS Subject Classification: 46B25
