On weakly \mathcal{HC} -embedded subgroups

Comment.Math.Univ.Carolin. 66,1 (2025) 37–45.

Abstract: We obtain some sufficient conditions for a group to be p -nilpotent or p -supersoluble and extend some known results.

Keywords: p -nilpotent; p -supersoluble; weakly \mathcal{HC} -embedded subgroup

AMS Subject Classification: 20D10, 20D20
