Homology theory in the AST III Comparison with homology theories of Čech and Vietoris

Comment.Math.Univ.Carolinae 34,1 (1993) 11-22.

Abstract: The isomorphism between our homology functor and these of Vietoris and Čech is proved. Introductory result on dimension is proved.

Keywords: alternative set theory, set-definable, homology theory, simplex, complex, Sd-IS of groups

AMS Subject Classification: 55N35, 20F99
