*More on the complexity of cover graphs*

Comment.Math.Univ.Carolinae 36,2 (1995) 271-280.

**Abstract:** In response to [3] and [4] we prove that the recognition of cover graphs of finite posets is an NP-hard problem.

**Keywords:** partial order, graph theory, complexity classes

**AMS Subject Classification:** 06A06, 68R10, 68Q15
